- **Engine: Honda Gasoline**
- **Electric Start Options Available**
- **Heavy Duty Steel Roll Frame Included**
- **Optional Wheel Kit Available**
- **Built-in Check Valve**

Model 3391-V5

The AMT line of Engine Driven Solids Handling pumps offers an upgraded debris handling capability in wear resistant cast iron construction. Applications include: high volume liquid transfer, irrigation, dirty water commercial draining and construction. Pumps are designed to handle liquids with solids content or dissolved solids and debris. All models feature durable all cast iron construction and clog-resistant impeller to ensure a long life for the complete pump. Dual volute design reduces radial load on engines.
